

Your Needs and Challenges

- Reduce invoice processing related costs
- Get control of invoice payment approvals and accuracy
- Manage business growth with out adding AP fixed costs
- Deploy a world class AP invoice processing solution in your company

SBS - AP Invoice Processing Service

SBS - Proposed Solution

SBS solution was developed using world class AP process features
SBS provides a very cost competitive service for companies planning to reduce their invoice processing costs. It is based on

- Internet based secure portals
- Rule based electronic workflows
- Well trained remote staff
- Twenty five years of imaging and Document management expertise

A highly customized service solution is developed that seamlessly works with your current invoice processing department activity. Process may involve combination of the following activities

- Receipt of invoices
- Digitization of invoices
- Capture of data
- Routing of invoices for electronic approvals
- Capturing cost allocations
- Three way matching (PO/Invoice/Shipper)
- Archival of invoice records
- Custom reports and Dashboard info
- Data exports for updating financial systems

Our service offering is very flexible. You can decide the scope, you can let us do all the steps or have us do a few select tasks

Remote Services

- Reduction in invoice processing costs
- Complete control of your process
- You will have a world class AP process
- Focus on your core activities
- Manage growth with out hiring and committing to new fixed costs
- Our solution works for a few invoices per month to thousands of invoices per month

How it works?

- We perform a no cost needs assessment
- Review all options and associated benefits
- We deploy a custom solution that meets your company's specific needs
- We run the process on a pilot basis
- No upfront capital from your end
- You will pay based on the amount of invoices processed

Who is SBS?

A company focused on helping businesses improve their business process performance by helping them deploy innovative smart process

What is unique about SBS?

- We focus on smart process solutions and not on technology
- SBS solutions leverage IT, power of internet and global resource availability
- Provide solutions to business problems without the need for investing any capital
- We understand the business processes of various verticals and offer solutions that are prepackaged and ready to use
- We can provide the ability to use remote or off-shore resources using our process partnering tools and strategy
- Our solutions are implemented in weeks and not in months or years
- Our pilot programs with no strings attached minimize your risk of buying our solutions
