Simplifying Physician Practice Challenges

Physician Practice Portal-P³

The core components of your practice under one umbrella

Needs and Challenges

- ▶ Deploy PM & EMR software
- ▶ Meet all federal compliance mandates
- ▶ Maximize collections
- ▶ Reduce practice overhead
- ▶ Focus on patient care - not technology
- ▶ Deploy practices to improve revenue
- ▶ Ability to work and access information from anywhere

Proposed Solutions

- ▶ Secure, web based PM and EMR allow you to work from anywhere
- ▶ Portal interface to easily track work processes
- ▶ Can easily incorporate scanned documents
- ▶ Modules to meet your specific charting preferences
- ▶ Helps manage practice personnel
- ▶ Sophisticated reporting

What is P³

- ▶ A unique, simple to use, solution for managing the core functions of your practice. P³ is an internet hosted, HIPAA compliant system that can help practices deploy EMR, PM and other key capabilities. It is designed to improve financial, clinical and administrative performance of health centers and physician practices.

Uniqueness

- ▶ Simple to get started
- ▶ Extremely easy to use
- ▶ Supports deployment in days
- ▶ Minimal practice revenue impact
- ▶ Accommodates a variety of practices
- ▶ Facilitates effective use of remote or third party billing or transcription service
- ▶ Integrates a broad range of functionalities in a single system

Benefits

- ▶ Take advantage of stimulus money
- ▶ Meet federal compliance mandates
- ▶ Improve your receivables cycle
- ▶ No technology to buy or manage
- ▶ Improve efficiency with process automation and management
- ▶ Physicians can more effectively manage their work and personal schedules
- ▶ Work securely from anywhere you have internet access

How to get started
