

Your Needs and Challenges

- Take advantage of stimulus money
- Meet federal compliance mandates
- Maximize your collections
- Reduce your practice overhead
- Focus on patient care and not on technology
- Deploy practices to improve revenue based on pay for performance guidelines
- Work at various offices and access information from anywhere

SBS - Physician Practice Portal

Unique, simple to use, solution for managing the core functions of your practice. P³ is an Internet hosted, HIPAA compliant system that help practices deploy EMR, PM and other key capabilities. It can improve financial, clinical and administrative performance of physician practices.

Key Capabilities

- CCHIT Certified EMR
- Multiple options for Charting (type, write, dictate, transcription)
- Module to manage old paper charts
- Powerful, real-time reports
- Customizable templates

Uniqueness of Portal

- It is simple to get started
- Easy to use
- No need to buy any software or hardware
- Supports deployment in days
- Accommodates a variety of practices
- Facilitates effective use of remote or third party billing or transcription service

SBS - Physician Practice Portal / P³

The core requirements of your practice under one umbrella

- Hosted in a highly secure data center
- Data transfers and communications are encrypted

Benefits

- Meet federal compliance timelines
- Take advantage of up to, \$44K per provider of stimulus money
- Run a highly efficient practice
- Maximize your revenues
- Physicians can more effectively manage their work and personal time
- Ability to focus on patient care

How to get started

- Visit our website or call us for web demo
- Set up an on-site demo and see your practice in action
- Review and test your practice in our pilot portal
- Evaluate Return on investment
- Start implementation

Who is SBS-Healthcare?

A company focused on helping physicians & their practices, by deploying smart process solutions to improve financial, clinical, and administrative performance.

What is unique about SBS?

- We focus on smart process solutions and not on technology
- SBS solutions leverage IT, power of Internet and global resource availability
- Provide solutions to business problems without the need for investing any capital
- We understand the business processes of various physician offices
- We can provide the ability to use remote resources for your billing and transcription services
- Our solutions are implemented in weeks and not in months or years
- Our pilot programs, with no strings attached, minimize your risk of buying our solutions
